The 9/32" flow EFC12 Series couplings feature a high efficiency valve design that provides a greater flow capability than any other coupling its size. Chemically resistant polypropylene material makes it ideal for harsh environments. The EFC12 Series adds a bulkhead panel mount option for tight seals against tank walls and drums.

Features - Benefits

- High efficiency valve - More flow than PLC Series in a compact size
- Plastic thumb latch - Fewer moving parts
- Polypropylene material - Chemically resistant and gamma sterilizable
- Compatible - Mates with most APC couplings

These graphs are intended to give you a general idea of the performance capabilities of each product line. Contact CPC for flow of a particular coupling combination.
